

## **THE NEW AMBASSADOR OF FRENCH REPUBLIC IN VIETNAM VISITED SANOFI VIETNAM'S INDUSTRIAL SITE AT SHTP**

**Last week, Sanofi Vietnam had a great honor to welcome the New Ambassador of France Republic – Mr. Nicolas Warnery and his wife at the high-tech TGA-GMP manufacture which is located at Saigon Hi-tech Park (SHTP).**

Mr. Haissam Chraiteh – Country Chair of Sanofi Indochina welcomed the new French Ambassador – Mr. Nicolas Warnery. Mr. Warnery expressed his impression towards Sanofi's development in Vietnam – the leading French pharmaceutical multinational company in Vietnam, as well as highly appreciated Sanofi's contribution in boosting the economic relationship between Vietnam and France.

In the framework of the visit, Mr. Haissam Chraiteh shared about current operating situation of Sanofi and its industrial site, together with some significant milestones during the developing progress over the past 50 years in this country. Furthermore, set goals such as increasing the production capability, and achieving no plastic wastes target in production etc. are also mentioned.

Mr. Eric Auschitzky – Head of Sanofi Industrial Site, leads the tour of visiting Sanofi’s production area. With an investment of 75 million Dollars, the TGA – GMP factory located at SHTP, which is the Sanofi’s largest investment in Vietnam and Asia, produces pharmaceuticals and personal care products for Vietnam and Asian markets.

The factory also contains the only Sanofi's Research and Development Center in Southeast Asia, of which the mission is to optimize formula and develop new products. The effective operation of the factory has contributed in helping Sanofi maintain as well as enhance its leading position in Vietnam.
